U/D Elective ¹	3			U/D Elective ¹	3		
Elective ¹	<u>3</u>			Elective ¹	<u>0-2</u>		
	15		<i>•</i>		12-14		

¹ The BA Economics degree allows for 45-53 credits of elective courses. We recommend the student consider an accompanying minor or a double major (with another BA program). All courses required for this degree must be at the 100-level or above. Upper-division (U/D) electives must be at the 300 or 400 level.

² These courses are prerequisites for other program, required courses. BA ECON majors are encouraged to complete their math requirements early in their program. Students planning on graduate school are advised to take the entire full calculus sequence ((MATH 151 and MATH 152, or MATH A155), MATH 251, 252 and 253).

³ ECON 201 and ECON 202 will fulfill the GER Social Science requirement for this degree.

⁴ No more than a total of 6 credits earned in an Independent Study, or ECON 454 Economics Internship, may be used to satisfy requirements for the major (6 credits of Independent Study, or 3 credits of Independent Study and 3 credits of ECON 454).

⁵ Students must complete three credits of Alaska Native-Themed GER as well as three credits of Diversity & Inclusion GER coursework from the approved GER list. <u>However, the same course cannot meet both the AKN and DI requirements.</u> If overlap occurs with a separate, existing Tier II GER category, then for this planning sheet, students will fulfill these 3 credits with an Elective instead (see note 1 above).

⁶ Students who are considering a BBA program should choose COMM A111 or A241 (for GER Oral Communication) and WRTG A212 (for GER Written Communication).

NOTE: A total of 120 credits is required for the BA degree of which 51 credits must be upper-division. Students must complete at least 12 credits of their Economics courses in residence at UAA.

A grade of C or better is required for all major requirements.

This is a suggested sequence for taking courses and is not intended to take the place of the program requirements listed in the UAA Catalog. Please contact your academic advisor for more information.

UA is an AA/EO employer and educational institution and prohibits illegal discrimination against any individual: <u>http://www.alaska.edu/titleIXcompliance/nondiscrimination/</u>

BA ECONOMICS

Economics is a social science that mainly studies how individuals, organizations, and governments make choices about the use of resources. A Bachelor of Arts in Economics prepares students for career opportunities in many fields and provides excellent preparation for graduate studies in a variety of disciplines. The Bachelor of Arts in Economics isn't a business degree and does not require the typical business courses needed for other business degrees. The BA in Economics encourages a broad range of electives that complement the economics degree and expand employment prospects for students with economic interests.

Meet with your advisor to learn about the BA in Economics and employment options in this field.
